ABOUT TORONTO REHAB

About Research at Toronto Rehab

Toronto Rehab - University Health Network is home to the iDAPT Centre for Rehabilitation Research – the world’s most advanced rehabilitation research facility. iDAPT’s philosophy is all about producing practical solutions to real-life challenges through the development of new therapies and assistive technologies, important advances in knowledge to inform clinical practice, and changes to policy and public opinion. iDAPT’s work is revolutionizing rehabilitation and maximizing life for people living with disabling injury, illness or the effects of aging. To read more about us, please visit idapt.com

About Toronto Rehab’s Annual Research Day

Toronto Rehab’s Annual Research Day features a wealth of innovative rehabilitation research. It’s an opportunity for all members of our research community to come together to present their research to colleagues, decision-makers and the public. Presenters include: students, trainees, clinicians, scientists and other research staff. This is an action-packed day that spotlights all of our extraordinary research and researchers and includes: short one-minute research presentations (“Minute Madness”), poster presentations, and interactive displays.

About This Year’s Theme: Ferocious Innovation

The last ten years have been a decade of discovery for Toronto Rehab. As we emerge from this time with a huge body of knowledge, amazing strategic partnerships, and a global perspective in rehabilitation research, it is now our time to scale up, push even further, to translate this new knowledge into Real Solutions.

We are entering an era of Ferocious Innovation

At Toronto Rehab, we are ferocious in breaking down barriers, tapping into inventive minds, and working collaboratively with healthcare providers, governments, policy-makers and industry leaders to make the best use of existing resources. We are ferocious in our determination and persistence to bring about real improvements in the quality and efficiency of research and patient care, our tenacity ensures the spread of these developments goes beyond the lab.

DETAILED SUBMISSION CRITERIA

Submission deadline: October 13th, 2016

Submit to: adaptinnovations@gmail.com

Criteria for cover design submission:

- Submission must be in full colour
- Submission must be submitted electronically
- Any software may be used to create the design, e.g. Illustrator, Photoshop, Word, PowerPoint, etc.
- Submission must reflect the theme: Ferocious Innovation
- Submission must contain Toronto Rehab logo
- The cover is 8.5 x 11" and is bound by coil binding. Please take this into consideration when designing the cover.
- Submission format – high resolution PDF, JPEG, or PNG
- Images used in the design should be a minimum of 150 pixels per inch.

Eligibility

Cover design submissions are welcome from anyone, anywhere. There is no limit to the number of submissions per person.

Contest Prize

An Honorarium of \$250 will be awarded to the successful cover design winner. The winner will also have their name published in the Toronto Rehab Research Day Book and have their design showcased on our website for one year.
